

Feedback and checking

What basis is provided for judging the work?

Shows how work is progressing or how a result meets a goal, criterion or reference. It includes feedback on attempts, problem diagnosis, quality assessments and checks.

DESIGN CHOICES

Attempt and progress

Problem, quality and status

Check against a reference

RETAINED DISTINCTIONS

FC065
formative outcome feedback

FC066
progress and status tracking

FC063
Identifying problems in the work

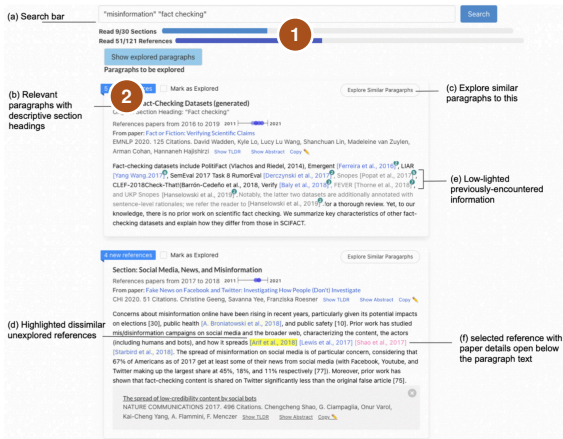

FC064
evaluative judgment or quality rating

FC067
correctness or status marking

FC068
verification and checking against a reference

Recorded form · FC063: Error and failure diagnosis (VA007).

PAPER ILLUSTRATION · FC066

1. Paragraph and reference coverage 2. Unread-reference count
Persistent coverage bars and local unread-reference counts make progress through the literature visible.
